

Niels Wilhelm Knudsen Quintet

The right combination of players on a team is crucial for the result. The right combination of skills and personalities, of wildness and fragility, of groundedness and restless searching. The Niels Wilhelm Knudsen Quintet has, in all modesty, the right combination of players to create exciting, creative, forward looking and current jazz.

The Group consists of sharp profiles from the Danish/Nordic jazz scene, each musician has a strong voice on their instrument and clear opinions about the music. As a quartet the band released "Impulse" in 2018, featuring original compositions from Knudsen. The quartet has successfully toured in Denmark. The addition of Polish trumpet player Tomasz Dabrowski to the band is a considerable expansion of sonic and creative possibilities of the band.
